Vacating a Right-of-Way

Fraser River Development Company (FRDC), the developer of Roam, has requested to vacate an unnamed right-of-way (ROW) located north of the new platted Ski Idlewild Road. The ROW is about 1,973 sq. ft. and is no longer

required as the road is being extended to provide connectivity and will be dedicated to the Town. Council approved this ordinance on first reading. A public hearing and second reading on this matter will take place on Tuesday, January 21 at 5:30 p.m.

Snowmelt System at Transit Center

During construction of the new Cooper Creek Transit Center, it was determined that installing a snowmelt system in the surrounding sidewalks would be beneficial. This would ensure the sidewalk does not become a slip hazard to transit center visitors. Council approved contracts with JT Kopp Construction and Tolin Mechanical to complete this improvement.
