

Where do we see Winter Park in 5 years?

In five years Winter Park will.....

- Have plans for the financing and construction of the resort connections (gondola & bike/ski-back trail) moving towards approval and construction
- Have established a district (URA, DDA, PIF, etc.) for the financing of public infrastructure associated with development plans in key locations of the community
- Have advanced efforts for the formation of a regional transportation authority to participate in the funding of regional transit operations and connections
- Develop strategies/plans to leverage the private investment being made in Winter Park to finance the construction of downtown connections, walkability and other desired amenities
- Established an economic development committee of key stakeholders & investors to provide input and coordination of private investment
- Be advancing (or have completed) acquisition of the Denver Water property at the end of Vasquez Road as well as other properties for trailheads, etc.
- Implement the recommendations of the Parks, Open Space, Trails & Campgrounds plan adopted by the Town
- Continue the development of community housing throughout Winter Park and the FRVHP district
- Support the funding of critical community functions (childcare, mental health) and other sustainable community initiatives
- Be implementing sustainability initiatives (solar projects, electric vehicle deployment)
- Have implemented fire mitigation projects on USFS and private lands adjacent to Winter Park and surrounding communities
- Advanced water management strategies to preserve critical flows within Winter Park's creeks and rivers
- Complete the construction of a police facility
