CONNECT WINTER PARK.

PURPOSE

A comprehensive system of aerial and bus transit to connect Colorado's existing and planned intercity passenger rail system with the Town of Winter Park, local communities and public lands recreational opportunities.

- To:
- Fraser
 - Granby
 - Rocky Mountain National Park
 - Steamboat Springs
 - Craig

Cooper Creek Transit Center
Buses

Proposed Downtown Winter Park
Gondola Station

Winter Park
Main Street Downtown

Cooper Creek Village
Future Mixed-Use Community

BENEFITS

Equitably link people to housing, services and economic opportunities; reduce congestion on local roadways and state highways; and support efforts to protect the environment and climate.

ESTIMATED COST AND SCHEDULE

The proposed program is in the planning phase, preparing to enter project development, at which time, a cost estimate and schedule will be prepared.

PLANNED FUNDING

Like any complex program conveying benefits to many stakeholders locally, regionally and statewide, a mix of private, local, state and federal funding sources are anticipated; a funding plan will be developed following entry into the project development phase.

STAKEHOLDER SUPPORT

This vision has been three decades in the making, having a high level of public awareness and support; the Town of Winter Park, Winter Park Resort and local community developer WC Johnson have furthered their collective efforts to advance the program, undertaking public engagement.
